

For this assignment, you need to create a basic tic-tac-toe game using HTML, CSS, JavaScript. Please look at the GIF given below.

[GIF1](#)

[GIF2](#)

Deliverables:

- User should be able to click on any of the square and correspondingly the correct value (O or X) should be displayed in it.

As a bonus, track the game state after each move and display the result – Tie, P1 wins or P2 wins.

Note:

- You have the freedom to design this in any way. The above UI is given as a reference.
